

VINNY'S FALL UPDATE:

Thank you to all of our customer for your continued support! These have been historic and challenging times for everyone. From our perspective, our little corner of the world - our community - has done a great job adjusting to circumstances as they change, finding ways to help their neighbor, and cooperating with steps that will, in the end, alleviate the pressure on our front-line workers and help defeat this virus.

We place safety above all else at Vinny's. To that end, we continue to follow protocols that we started at the beginning of th pandemic. These include wearing masks and gloves, employee health checks, continuous surface cleaning, washing hands, sanitizing credit cards, and keeping all refuse from outdoor dining away from the kitchen. We also screen and sanitize all products coming into the building outside and as they enter our premises. We have been told repeatedly this has not been seen elsewhere.

So,

- Outdoor dining will continue on our front porch as weather permits.
- At this time, there will still be NO INDOOR DINING OPTION and NO INDOOR PICKUP/TAKEOUT.
- Our popular CURBSIDE SERVICE will continue.
- Delivery will continue as before, NO TOUCH except where an exchange of cash is required.

Thank you for your patience!

Every step in all of our preparations and services takes just a bit more time. We strive to get your order done quickly, consistently, and correctly.

We are all in this together. As it gets colder outside and the holidays approach, please keep the most vulnerable of us in mind. And keep all those in public service of any kind in your thoughts.

And, thank all again for supporting Vinny's Pizza!

Mark and Maria
